TESLA

Bring your friends and family to a Tesla showroom to experience the new Tesla Arcade until June 30.

Access the full library of games directly from the vehicle's touchscreen to play gaming classics like Atari Missile Command and Asteroids – or experience our newest addition, Beach Buggy Racing 2, a kart racing game where you can careen, blast and launch your way through 22 tracks. Players can recruit new drivers (see if you can find our favorite) and use the steering wheel controls for the most immersive gaming experience.

Learn more about the latest performance features during your visit or schedule a test drive
